

Remevit C Vet

Ascorbic Acid 100%

Antistress Oral Powder for Poultry and Livestock

Composition:

Each 100 gm Powder contains Vitamin C (Ascorbic Acid) 100 gm

Pharmacology:

Remevit C Vet powder is readily absorbed from the gastrointestinal tract water soluble vitamin and is widely distributed in the body tissues. It is used in cellular respiration by biological oxidations and reductions. It is essential for the synthesis of collagen and intracellular material. Vitamin C deficiency develops when the dietary intake is inadequate and when increased demand is not fulfilled. Deficiency leads to the development of scurvy, delay blood coagulation, anaemia, cartilage & bone lesions and slow healing of wounds. It helps to keep the Vit -E in good condition in the body. Ascorbic acid enhances iron absorption from gastrointestinal tract.

Indications:

- For deficiency of Vitamin C
- Used in any kind of stress like heat stress, adverse climate condition, transportation, pullet replacement, overcrowding, culling, vaccination and anthelmintics use etc. Intestinal ulcers, scissoring ulcer or any kind of wound for proper healing by collagen synthesis.
- Intestinal ulcers, scissoring ulcer or any kind of wound for proper healing by collagen synthesis.
- To prevent thin-shelled egg formation in case of excessive environmental temperature
- Increase egg fertility and hatchability
- During debeaking to prevent hemorrhage & stress.
- Supportive treatment in case of coccidiosis for healing of intestinal ulcer.
- Helps to coagulate the blood.

Dosage & Administration: 1 gm/5-10 liter drinking water or 1 gm/5 kg feed for 3-5 days

Side effect:

It has no side effect at recommended dose.

Storage:

Store in a cool & dry place, out of reach of children. Protect from light and moisture and keep away from feed.

Presentation: 100 gm sachet, 500 gm & 1 kg container
